Fractal Image Encoding - Virginia Tech Fractal Image Encoding and Analysis: A NATO ASI Series Book, Yuval Fisher (Ed.), Springer Verlag, New York, 1996 contains the proceedings of the Fractal Image Encoding and Analysis Advanced Study Institute held in Trondheim, Norway July 8-17, 1995. This book contains articles by leading researchers in the fields of fractal image encoding and analysis. Fractal compression - Wikipedia Fractal compression is a lossy compression method for digital images, based on fractals. The method is best suited for textures and natural images, relying on the fact that parts of an image often resemble other parts of the same image. The related fields of fractal image encoding and fractal image analysis have blossomed in recent years. This book, originating from a NATO Advanced Study Institute held in 1995, presents work by leading researchers. AN INTRODUCTION TO FRACTAL IMAGE COMPRESSION An Introduction to Fractal Image Compression 5 This simple looking theorem tells us how we can expect a collection of transformations to define an image. 3. Why the name "Fractal" ... a fractal encoding of "Lena" along with a magnification of the original. 4. How much Compression can Fractal achieve?.

Fractal image compression using upper bound on scaling ... The proposed method provides enough speed-up in image encoding. It is faster than many fast variants of Fractal compression methods. Our method is unique to exploit analytically found upper-bound for speed-up. A fractal image encoding method based on statistical loss ... The thinking of fractal image encoding was to find the relationship between subsets of the encoding image, and used the parameters of contractive affine transformation as the encoding file. This method had many benefits. Fractal Image Compression - Northwestern University The quality in Fractal Image Compression is affected by the panel size. Smaller the panel size, more accurate will be the encoding of the image and better will be the quality of the decoded image. The differences can be seen below.

Cuckoo inspired fast search algorithm for fractal image ... The high encoding time due to the complex search in identifying the similar blocks in given image is the significant constraint of the traditional fractal image compression, which has the iterated function system (Barnsley and Sloan, 1990) as backbone of the fractal image compression. Hence the decreasing encoding time in fractal image compression is the significant objective for many researchers.
